

## Overview

# 17

**In vivo reflectance confocal microscopy.**

*Levine A, Markowitz O. Cutis. 2017 Jun;99(6):399-402.*

### **ABSTRACT**

Reflectance confocal microscopy (RCM) has recently received Category I Current Procedural Terminology (CPT) codes by the Centers for Medicare & Medicaid Services for reimbursement comparable to a skin biopsy. In this article, we present a review of RCM imaging and its benefits and limitations in diagnosis and treatment planning. We also comment on guidelines for receiving reimbursement for acquiring, reading, and interpreting RCM images. PMID: 28686758
